9 Pursuant to the Montana Water Use Act and the Montana Administrative
10 Procedures Act, after due notice, a hearing was held on March 26, 1980,
11 at Terry, Montana, for the purpose of hearing objections to Application
12 for Beneficial Water Use Permit No. 21,716-s42M, David Pengelly, Hearing
13 Examiner, presiding. The hearing in this matter was held concurrently
14 with hearings in the Matter of Application Nos. 21,715-s42M, 21,862-
15 c42M, and 22,293-s42M.

16 The Applicant, Harold A. Gaub, appeared at the hearing and presented
17 testimony in support of the Application. Mr. Gaub was represented by
18 legal counsel, Mr. John Prater of Terry, Montana. One exhibit was
19 introduced supporting the Application, to wit:

20 Applicant's Exhibit:

21 A-1 Copy of aerial photo showing Applicant's irrigated lands
22 and proposed irrigation projects

23 The Applicant's exhibit was marked accordingly and received into the
24 record without objections.

25 Two (2) Objectors attended the hearing and presented testimony.
26 The Objectors, Messrs. Don and Kurt Ulrich were not represented by legal
27 counsel. Mr. Gottlieb Ulrich testified on behalf of the Objectors.

28 The Objectors introduced five (5) exhibits supporting their objections,

to wit:

CASE # 21715

Objectors' Exhibits:

- O-1 Copy of Notice of Water Right Appropriation by Rudolph Ulrich
- O-2 Photographs of Spring Creek in the vicinity of the Objector's property in 1977
- O-3 A table of hay tonnages correlated to the years 1973 thru 1979 claimed to have been taken from the Objector's fields
- O-4 Photocopies of photographs of Spring Creek in the vicinity of the Objector's property; 1969, 1970 - 76 and 1978 and 1979
- O-5 Photograph of Objector's diversion dike taken on March 26, 1980

Exhibit O-1 was received into the record without objections. Counsel for the Applicant objected for the record to the entry of Exhibits O-2, O-4 and O-5 based on their probative value. Counsel for the Applicant objected to the entry into the record of Exhibit O-3. Due to the informal nature of the hearing, the objection is overruled and Objector's Exhibit O-3 is accepted into the record.

Montana Department of Natural Resources and Conservation Personnel present on behalf of the Department were Arlin Krogstad, Hearing Representative Keith Kerbel, Miles City Water Rights Bureau Field Office Manager; and Vicki Woodrow, Hearing Recorder. Also present at the hearing was Rick Burger, Department Pilot. The Department was not represented by legal counsel. No exhibits were introduced by the Department.

The Objectors requested that their testimony presented at a prior hearing held on Application Nos. 7,545-s42M and 8,877-s42M by the Applicant be entered into the record. Counsel for the Applicant requested that the Hearing Examiner only use that earlier testimony as it related to the criteria listed in Section 85-2-311, MCA, 1979. The transcript of

1 the above hearing has been entered into the record on this matter.

3 SUMMARY OF RECORD

4 1. On January 24, 1979, the Department received an Application for
5 Beneficial Water Use Permit No. 21,716-s42M by Harold A. Gaub to appropriate
6 up to 10 acre-feet per annum from Spring Creek, a tributary of Cabin
7 Creek, to be diverted at a point in the NW1/4 SE1/4 NW1/4 of Section 10,
8 Township 12 North, Range 54 East, M.P.M., in Prairie County, Montana, to
9 be used for supplemental flood irrigation on 25 acres, more or less, in
10 the NE1/4 of Section 10, Township 12 North, Range 54 East, M.P.M., from
11 January 1 to March 31 and July 1 to December 31, inclusive, of each
12 year.

13 2. On April 12, 19 and 26, 1979, the Department caused to be duly
14 published in the Terry Tribune, Terry, Montana, notice of Application
15 for Beneficial Water Use Permit No. 21,716-s42M.

16 3. On April 24, 1979, the Department received an objection to the
17 above Application from Donald and Judith Ulrich and Kurt and Judy Ulrich.

18
19 PROPOSED FINDINGS OF FACT

20 For purposes herein, based on testimony presented at the hearing
21 and information available in the Department's file on this matter, it is
22 found:

23 1. That whenever water is flowing through the 18-inch tube in the
24 Objector's dike system there are unappropriated waters in the source of
25 supply which can be put to the use proposed by the Applicant.

26 2. That water is available in the amount the Applicant seeks to
27 appropriate.

28 3. That throughout the period during which the Applicant seeks to
appropriate, the amount requested is available.

CASE # 21716

1 4. That the Objectors do have existing use rights for irrigation
2 and stock water which must be protected. The Objector's irrigation
3 right is for 300 miner's inches and their stock water right is for
4 sufficient water for approximately 200 head of livestock.

5 5. That the rights of prior appropriators will not be adversely
6 affected by the granting of this permit.

7 6. That the proposed means of diversion or construction are adequate.

8 7. That the proposed use of water is a beneficial use.

9 8. That the proposed use will not interfere unreasonably with
10 other planned uses or developments for which a permit has been issued or
11 for which water has been reserved.

12
13 PROPOSED CONCLUSIONS OF LAW

14 1. Section 85-2-311, MCA, 1979, states that "The department shall
15 issue a permit if:

16 1. there are unappropriated waters in the source of supply:

17 a. at times when the water can be put to the use
18 proposed by the applicant;

19 b. in the amount the applicant seeks to appropriate; and

20 c. throughout the period during which the applicant
21 seeks to appropriate, the amount requested is
22 available;

23 2. the rights of a prior appropriator will not be adversely
24 affected;

25 3. the proposed means of diversion or construction are adequate;

26 4. the proposed use of water is a beneficial use;

27 5. the proposed use will not interfere unreasonably with
28 other planned uses or developments for which a permit

has been issued or for which water has been reserved; . . ."

CASE # 21716

1 2. Section 85-2-401 (1) states ". . . As between appropriators,
2 the first in time is the first in right. Priority of appropriation does
3 not include the right to prevent changes by later appropriators in the
4 condition of water occurrence, such as the increase or decrease of
5 streamflow or the lowering of a water table, artesian pressure, or water
6 level, if the prior appropriator can reasonably exercise his water right
7 under the changed conditions. . . ."

8 3. It is concluded that there are unappropriated waters in the
9 source of supply in the amount the Applicant seeks to appropriate and
10 throughout the period during which the Applicant seeks to appropriate
11 such water is available.

12 4. It is concluded that the granting of the above Application will
13 not adversely affect prior appropriators.

14 5. It is concluded that the proposed means of diversion or construction
15 are adequate.

16 6. It is concluded that the proposed use of water is a beneficial
17 use.

18 7. It is concluded that the proposed use will not interfere
19 unreasonably with other planned uses or developments for which a permit
20 has been issued or for which water has been reserved.

21 8. Nothing decided herein has bearing on the status of water
22 rights claimed by the Applicant other than those herein applied for,
23 nor does anything decided herein have bearing on the status of claimed
24 rights of any other party except in relation to those rights herein
25 applied for, to the extent necessary to reach a conclusion herein.

26 Based on the Proposed Findings of Fact and Proposed Conclusions of
27 Law, the following Proposed Order is hereby made:
28
